

STORZ MASTERPULS® MP50

FOCUS-IT
YOUR SPECIALIST FOR SHOCKWAVE THERAPY
& INNOVATIVE TECHNOLOGIES

The most lightweight, compact
and economical shock wave
unit on the market.

STORZ MASTERPULS® MP50

Radial shock wave therapy system
with D-ACTOR® technology.

New developments and research in shock wave technology and its applications have led to more affordable and more portable shock wave devices. The newest model is the STORZ MASTERPULS® MP50. This exceptionally efficient system is the most lightweight, compact and economical shock wave unit on the market.

What makes the MP50 unique?

- Extremely Affordable
- Compact: 13 x 13 x 6 inches
- Lightweight: only 20 lbs.
- Economical: minimal operating expense
- Control Unit with Built-in Compressor
- Quick Treatment Sessions
- Shock Frequency: 1-11 Hz
- Application Pressure: 1-3 bar/11 MPa

Shock wave therapy non-invasively treats:

- Tendon and Ligament Injuries
- Osteoarthritis and Stress Fractures
- Muscle Pain and Non-healing Wounds
- Acupressure and Trigger Points
